ABSINTHE

The Green Fairy (as absinthe was originally named) was a popular drink in the XIXth century, and played an important role on the wildness of those days, marking the lives of those who consumed it, such as Van Gogh or Toulouse-Lautrec. Teichenné has recovered the original formula based on Artemisia Absinthium distillate. Contains Thujones.

TEQUILA

Made using traditional methods and the raw material is the hearts or piñas (harvested when they are about 5 to 8 years old) of the Blue Agave (a plant that is native to Central America, also called mezcal, maguey or pita), which are harvested by hand and cooked in stone ovens. They are heated slowly for 2 days in stone ovens before being processed with special yeasts and distilled in small copper stills.

A classic example of tequilas from the Mexican State of Jalisco, a smooth, crystalline drink.

MEZCAL MACHETAZO PAPALOTE

A deliberate balance in the alcohol level is sensed on the mouth, intentionally and successfully driven. Machetazo is lingering and silky; the Agave's herbal and citric flavours stand out, while the aftertaste presents the river rock as the hint that creates a long and smooth finish.
